OBSIDIAN

The Knowledge Management Phenomenon

A local-first note-taking and knowledge management platform built for thinkers, writers, and creators who value ownership, simplicity, and long-term accessibility.

BUSINESS NAME & IDEA

Obsidian is a markdown-based knowledge management platform that stores your notes locally. It helps you think, connect ideas, and organize your knowledge without being locked into proprietary systems.

KEY MANAGEMENT PRACTICES

- Minimalist management structure
- Remote-first and asynchronous culture
- Community-driven plugin ecosystem
- "File over app" philosophy
- No-meeting, deep work environment
- Sustainable and bootstrap approach

TYPE OF ENTREPRENEUR

Innovative Bootstrapper

Built without venture capital funding, focused on sustainable growth, product quality, and a strong user community.

UNIQUE FEATURE / INNOVATION

Local-First Architecture

Your notes are plain-text markdown files saved on your device. You own your data, ensuring privacy, portability, and independence forever.
